

WAVY EDGE HOOK & LOOP DISCS

12-8-06

Kasco's wavy hook & loop discs are perfect for sanding small contoured pieces. Since the disc wavy edge extends over the edge of the backup pad they will conform to convex shapes like wood bowls.

Our discs are not the typical paper, but cloth back for much longer disc life and durability. These cloth discs will not tear.

With the 1/4" spindle backup pad they can be used with electric drills and other collet tools. They are especially popular with wood turners, wood bowl makers, and other craftsmen.

Disc 50 pack

#665400 - 2" Wavy Disc Starter Kit

Contains 10 each 2" cloth wavy edge discs in 80, 100, 150, 180, 220, & 320 grit.

2" x 1/4 shank backup pad and three solid interface pads.

Why use an interface pad?
First it give you more control over the flexibility of your tool. Also as sanding tends to wear the backup pads, it is more cost effective to replace the interface pads than the spindle backup pad.
