FLOOR SANDING BELTS

The premium belts are specially designed for floor sanding. Except for the 16 grit, all are fabricated from ZAP44 blue alumina zirconia cloth. This is a premium material for superior performance. Alumina zirconia provides added life over aluminum oxide cloth belts. It will also easily cut through nails in the floor. The 16 grit is a strong poly cotton AO cloth, since the alumina zirconia is not available in grits coarse than 24. We also offer an lower cost aluminum oxide line in the 8 x 19 size.

All belts are made to order. Be sure that you order the correct size and grit. Belts are guaranteed for workmanship, but are not returnable if you order the wrong size.

Check online for current prices.
